

Seen above from Left to right Justin, Carter Printing, John Fleming, Consolidated Marketing, Russ Carter, Carter Print-

Carter Printing Company of Richmond Virginia has recently installed 2 new pieces of Graphic Whizard equipment. Purchased through John Fleming of Consolidated Marketing who quickly identified Carter Graphics finishing needs. Russ Carter attended On-Demand 2010 in Philadelphia in April and chose Graphic Whizard's VividCoater XDC-750A to be the best fit for his business. Russ Carter (owner) will add UV coating to their wide range of offerings for their digital and offset finishing. Carter Printing is a full service commercial printer offering print service from their Canon 7000 Digital Color Press up to their 6 color 56" Mitsubishi offset press. Carter also purchased the CreaseMaster Plus for his short run digital and offset creasing/perfing needs.
