

Seen above. Keith Miller, Owner, Miller's Minuteman Press.

Patton Printing Supplies of Gaithersburg, Maryland has recently installed their 3rd GW-460A Perfect Binder in 6 months. Keith Miller owns 6 Minuteman Press locations in the state of Maryland. Miller, like all printers today, invests a great deal of time and consideration when making capital equipment purchases that will increase productivity in his shops. Easy to use equipment for quick integration is essential. Quality equipment with competitive pricing supported by references of other users that he trusts in the industry, confirmed for Keith that GW and Patton Printing Supplies were the partners to help him *get started with his venture into short run book publishing*. **Miller MMP** has also been using a GW-6000 numbering machine for years.
