

Seen above from Left to Right Mr. Oh and Steve Oh of Siloam Printing Corp.

Spiel Associates of Long Island City recently installed a new GW-12000 at Siloam Printing Corp in Flushing New York. Siloam has been a loyal Graphic Whizard customer for over 10 years with their GW-6000. Their new 12000 will give them twice the productivity as well the added ability to perform strike perforating. Siloam also purchased the entry level CreaseMaster MCP hand operated creasing perforating machine to assist them with their digital finishing coming from their new Canon color digital device.
