

Seen above from Left to Right Chris Harrington, Graphic Whizard and Todd Patane, Patane Press Inc.

Spiel Associates of Long Island City has recently installed the NEW XDC-530 Micro UV Coater with CreaseMaster Plus and Transport at Patane Press in New York City. Michael Spiel worked hard to earn Patane's business at their open house, then at the On Demand Show. Todd and John Patane did their research to ensure they were purchasing the right solution for their business. Running Konica 6501 and offset work through their system they can hand-feed for short runs or vacuum feed with their creaser for higher productivity and automation with longer runs.
