

Seen above from Left to right Brian Halter of Northern Machine Works and Josh Massie of Waveline Direct.

Northern Machine Works of Philadelphia has recently installed a Graphic Whizard XDC-750A at Waveline Direct in Mechanicsburg PA. Josh visited On Demand in April to research UV coaters, with Brian's hard work Waveline Direct chose Northern Machine Works and Graphic Whizard to partner with for their venture into the UV Coating market. After researching and comparing to other UV Coaters and Manufacturers Josh felt confident that the Graphic Whizard XDC series features and quality was the best fit for Waveline Direct.
